

Jockim Lobo (64yrs), Mura House, Mooduperar village, Mangaluru, Karnataka

08/04/2019 13:08 by admin

Jockim Lobo (64yrs), is suffering from Diabetes Mellitus, Hypertension and Chronic Kidney disease stage V since the last seven years. He requires lifelong Renal Replacement therapy in the form of Hemodialysis twice a week. This therapy costs approximately Rs 2,40,000 per year exclusive of medicines and medical investigations.

His family has no source of income and they have no earning member in the family. His family holds only four cents land where they cannot grow anything. He has to depend on charity. Therefore, please send your kind remittances to the following bank account:
