Tamil Nadu: A youth has been brutally murdered by contract killers on Tuesday night near Tirupattur area in the Vellore district. Police are still searching for the person who hired them.

The deceased is identified as one Sivakumar who lived in Tirupattur area of the Vellore district. Sivakumar was married with three children when he had an affair with Kuttiammal of the same area.

Kuttiammal lost her husband and lives with her two sons, who are studying in college. On Tuesday night, when Sivakumar was returning home, some masked men interrupted him, pushed him down and sprayed chilli powder in his eyes.

When Sivakumar lost his balance, they cut his male organ off and threw a big stone on his head and escaped after the vicious attack. Sivakumar had died on the spot. Many shocking facts have emerged during police investigations.

Kuttiammal has had an affair with another man called Palani of Poongulam village a few years earlier. He had gone abroad on some business and that is when she befriended Sivakumar. Palani returned recently from overseas and came to know that Kuttiammal is having an affair with Sivakumar.

So he warned Kuttiammal. On learning this, Sivakumar decided to send Kuttiammal to some other safer place and had seen her off on Tuesday from the Jolarpet railway station. He was returning from there that he was killed. Police have further informed that they have mounted a search for Palani.
