She has never shied away from flaunting her toned figure on Instagram. And Emily Ratajowski proved that to be true on Thursday when the underwear model shared three nude snaps from her ocean front villa. The 28-year-old model shared the arty black and white silhouette photos with her over 24 million followers.

Standing near and in-door-outdoor open deck area, with the water behind her, she posed in a seductive s-shaped pose.

Her body was very much in a dark shade and her facial features couldn't be made out with her hair falling across her face.
