[INDIA] --- In a shocking incident, a woman and her minor daughter were allegedly raped while she was returning to her home from Piran Kaliyar, a Muslim religious site in Haridwar's Roorkee.

The mother-daughter duo were gang-raped by a man named Sonu and his accomplices inside a moving car. The man invited them inside the car by offering them a lift to their home, said the police.

As per PTI, Superintendent of Police (Rural) Pramendra Doval said some friends of the man were already in the car.

The accused raped the victims inside a moving car and dumped them near a canal.

In the middle of the night, the woman reached the police station and filed a complaint. While she was unable to tell the number of men present in the car, she identified the person who was driving the car as Sonu.

The victims have been admitted to the Roorkee Civil Hospital. Their medical examination confirmed rape.

The police are investigating the case and have started looking for the accused.
